

Could your business benefit from a **Business Health Check**

No charge - this service is fully funded by the Australian Government

How can this service help you and your business?

We have a team of experienced business mentors and small business consultants who will review the current status of your business and provide you with recommendations and an action plan to address any issues identified.

The team will assess the following issues within your business

- Marketing activity and strategies
- Financial records
- Staff complement and associated HR management
- Supply chains
- Organisational structure
- Risk management

This assessment will look to identify the key areas of the business that are

- Supporting growth in the business
- Roadblocks hindering growth
- Requiring external support for survival and viability
- Important and necessary management skills and qualities
- Requiring CHANGE in process, resource, marketing, focus and vision
